

Brook Fuller

Titles: 2 Sources: 1 Stills: 1

Born: 1959

The Moving Picture Boy entry:

“Brook’s part in "**IL GATTOPARDO**" is a tiny one; in "**L’ARBRE DE NÖEL**" it is large and extremely maudlin, an early entry in the Dying Boy genre later to be dominated by Renato Cestíé *[qv]*.

The unfortunate Pascal expires (of radioactive contamination) serenely and in the utmost comfort, in a château bought by his millionaire father, and in the company of two tame wolves. The American release title: "**WHEN WOLVES CRY**", might have been amended to "When Critics Howl".
