Oxygen is carried in the blood. You'll find it outdoors, as a rule.

Source: John Willis Screen World Annual 1991

[no listing in "Halliwell's Film Guide", "Leonard Maltin's Movie and Video Guide 2001", "The Critics' Film Guide", "Rating the Movies (1990)", "TV Times Film & Video Guide 1995", "Variety Movie Guide 1993", "Video Movie Guide 1993" or "The Virgin Film Guide"]

No further information currently available. The "*John Willis Screen World Film Annuals*", although they cover the year's releases pretty comprehensively, with ample stills and full credits for each, carry not a word about the content of any of them, a curious concept to say the least. The only possibilities we can infer from the names appearing in this film are that it's a documentary on hunting or on political dynasties. What else might be "in the blood"? Alcohol? Malaria? Tyssen Butler is doubtless son of director/producer/screenwriter George.

See subject index under **DOCUMENTARIES** and (speculatively) **HUNTING / SHOOTING / GUNS**.
