Speelfilm Encyclopedie review:

“Mini-series in six instalments. BBC version of Frances Hodgson Burnett’s famous book. Qualitatively watchable, but these days it’ll be hard for any version to stand up against the Ricky Schroder/Alec Guinness version. ****1/2”**

[no listing in "Halliwell's Television Companion", "History of Television" or "Television's Greatest Hits"]

No further information currently available. The sixth of eight known versions to date, though probably there were other adaptations for TV. It's another measure of the superiority of the Dutch *Speelfilm Encyclopedie* to any comparable English language guide that it includes even major TV serials as well. (It is larger, more comprehensive, copiously illustrated, does not exclude even pornographic titles, and has a vast coverage of non-English speaking cinema.) Nothing else is known of Glenn Anderson, if indeed he played the title role.
