

SUBJECT INDEX:

Chronological – 1970s

To further assist in locating obscure and forgotten titles, the main film index is sorted here into chronological sequence, by decade. Films prior to 1930 (with very few exceptions) will be found in the subject index under **SILENT CINEMA**. It's also often useful to note where films stood in the context of other productions released the same, or previous, year. It is interesting, for example, to know that "HOW GREEN WAS MY VALLEY" won the Oscars for Best Film and Best Director, but when you realise that "THE MALTESE FALCON" and "CITIZEN KANE" were just two of the films it won against, this throws the knowledge into a different perspective. Good as Ford's film was, it was not in the same league as the two films it beat. As in the main film index, short films and TV movies are included here, but no other television material.
